### *'Who's Who in CIA' Sells Out*

A Washington bookstore that advertised it had received a shipment of the book "Who's Who in CIA" a few days ago immediately sold out all 100 copies. "Some institutions" ordered large numbers of the book, the store said. It added that it had ordered another 150 copies by airmail.

The East German book purports to be a biographical reference work of CIA officials here and abroad.
